

**NEW TMI PROGRAM:  
INTEGRATED IMAGERY -  
AWAKENING PAST LIVES THROUGH HYPNOSIS**

***Integrated Imagery*** is a powerful technique used to explore the positive and negative karmic complexes (patterns) that we bring into this life. Through hypnosis and altered states supported by Hemi-Sync® music, one is guided to explore not only past lives but between life, before life, perinatal and biographical experiences that form the antecedents of those complexes. Most important, ***Integrated Imagery*** provides the opportunity to gain insight into the unique sense of our Soul Purpose.

This program is highly experiential. Participants will gain experience in conducting past life regressions through lectures, demonstrations, group processing and supervised paired regressions.

Topics explored during this program will include:

- Principles of Integrated Imagery and Eriksonian Hypnosis.
- Discussion of Complex Psychology, karmic processes and Soul Purpose
- Techniques in Integrated Imagery including intake, hypnotic induction, processing and closure.

The program is designed for counselors, licensed clinical social workers, psychotherapists, and others interested in incorporating Integrated Imagery Hypnosis into their counseling and therapy practice.

John Z. Amoroso, Ph.D., is a psychotherapist and educator from the Philadelphia area who has specialized for more than 25 years in transpersonal counseling using Integrated Imagery as a psychotherapeutic technique. He has training in Eriksonian Hypnosis, Gestalt Therapy, Psychodrama and PTSD. A faculty member of Atlantic University, he is the author of *Integrated Imagery: A Transpersonal Psychotherapeutic Approach*, and *Awakening Past Lives: A Step by Step Guide to Self Discovery*.

Dr. Amoroso will be assisted by Andrea Berger, a certified TMI Residential Trainer and graduate student at Atlantic University, where she has been certified in the Integrated Imagery program.
